

Parallel Event during the UNCTAD Public Symposium

The Geneva Office of the Friedrich-Ebert-Stiftung
cordially invites you to the presentation of

The Geneva Scenarios on “Global Economic Governance 2020”

As the present financial and economic crisis clearly shows the need for fundamental changes in the present global economic governance system, the FES Geneva scenarios offer four different, sometimes surprising pictures, of how this system could look like in the year 2020. These scenarios have been worked out by a team of 25 people from 17 different countries. They are intended to stimulate the ongoing debate on global governance reform and to show decision-makers quite plainly what could happen if they do nothing, do the wrong thing, but also what could be the future if they seize the opportunity and do the right thing.

Monday, 18 May 2009, 18:15-20:15 p.m.
Palais des Nations, Delegates Restaurant
(8th floor, above Assembly Hall)

Welcome and Moderation
